

Multi-Function School Activity Bus (MFSAB)

A
**Multi-Function
School
Activity Bus
(MFSAB)** can be a
Type A, C, or D school
bus with the following
exceptions:

Identification: The bus body must have the words “ACTIVITY BUS” in a contrasting color at least 8 inches high in the area where “school bus” is normally positioned. Lettering and numbering must conform to FMVSS and Florida School Bus Specifications and meet reflectivity standards. The numbering on an MFSAB may be of

a contrasting color. The school system name is displayed in at least 6-inch letters on both sides of the bus in the beltline area. School or team lettering no larger than 6 inches high and logos no larger than 12 inches high may be placed below the beltline. NO additional SIGNS OR LOGOS can be applied to any area of the bus, including the bumpers and the windows.

Color: The local school board determines and approves the color of an activity bus. The color scheme may utilize any combination of up to three colors. This combination may be in addition to an optional white roof. National School Bus Yellow cannot be used as a part of the color scheme. The bus wheels should not be painted black or yellow; however, they may be painted one of the three colors selected for the bus body or unpainted aluminum-finished polished wheels.

Seating: Type 2 lap/shoulder seat belts are required for all seating positions, including the driver’s seat.

Lighting and Warning Devices: All activity buses must meet state and federal standards for home-to-school bus lighting and warning device requirements, with the following exceptions:

- MFSABs must not be equipped with alternately flashing amber and red student warning signal lamps for loading and unloading students
- MFSABs must not be equipped with stop arm signals or crossing control arms
